

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

REPORT

OF THE

Insurance Department

OF THE

STATE OF ILLINOIS.

PART I.

FIRE, MARINE AND INLAND INSURANCE.

OFFICE OF INSURANCE SUPERINTENDENT,
SPRINGFIELD, ILLINOIS. March 1, 1910.

To His Excellency, Charles S. Deneen, Governor of the State of Illinois:

SIR—The Act of June 20, 1893, creating the Insurance Department of the State of Illinois, directs the Insurance Superintendent to make report annually to the Governor of the affairs of such department. In compliance therewith this, Part I, of the report for 1909, is respectfully submitted. This is the seventeenth annual report made since the establishment of a separate insurance department, and the forty-second annual report relating to insurance issued in this State. It relates to matters pertaining to fire, marine and inland navigation insurance companies transacting this kind of business and covers the transactions of the department during the calendar year 1909.

Part II will deal with life, assessment life, fraternal societies and casualty companies, and matters pertaining to these several classes of business. It will be submitted in a separate volume as heretofore for reasons of convenience.

This volume contains abstracts of the annual statements of the companies doing fire, marine and inland navigation insurance made to the department for the year ending December 31, 1909, and which at this date are licensed to carry on their business in this State. These abstracts show in detail the financial condition of the respective companies. Statistical tables prepared from these statements are also presented herein. They show in form convenient for comparison and for statistical purposes the information contained in the statements relative to the financial condition of the companies and the business transacted and the results experienced during the year.

The companies doing a general fire, marine and inland navigation insurance business in this State at this date may be classified as follows, viz.:

Illinois joint stock fire insurance companies.....	9
Illinois mutual fire insurance companies.....	13
Joint stock fire and marine insurance companies of other states.....	152
Foreign fire and marine insurance companies.....	44
Mutual fire insurance companies of other states.....	15
Total.....	233

This shows a net increase of five in the number of authorized companies over the number included in the last report, as follows:

Joint stock companies of this State—decrease.....	1
Illinois mutual fire insurance companies—Increase.....	2
Joint stock companies of other states—Increase.....	3
Foreign fire and marine insurance companies—Increase.....	1
Total increase.....	5

The aggregate number of companies embraced in this part of the report is as follows:

Total number transacting a general fire and marine business.....	233
District mutual fire insurance companies.....	12
County mutual fire insurance companies.....	63
Township mutual fire insurance companies.....	143
District mutual windstorm and cyclone insurance companies.....	8
County mutual windstorm and cyclone insurance companies.....	5
Aggregate.....	464

During the year one new company was incorporated in this State, as a joint stock company, viz.:

The Central National Insurance Company located at Chicago, authorized March 10, 1909, with a paid up capital of \$100,000.00 and a surplus of \$100,000.00.

Upon examination as required by the Act of March 11, 1869, the company was found to have complied with the requirements of the law and was authorized to commence business on the date mentioned.

Two new companies were incorporated in this State as Mutual Companies since the date of the last report, they are as follows: The Assureds National Fire Insurance Company of Decatur, October 4, 1909; Joliet Mutual Fire Insurance Company of Joliet, November 13, 1909.

Upon examination as required by the Act of March 11, 1869, these companies were found to have complied with the requirements of the law and were authorized to commence business on the dates mentioned.

Since the date of the last report companies from other states and foreign countries have been admitted to do business in this State as follows, viz.:

Name of Company.	Location.	Capital.
Atlas Fire Insurance Co.....	Des Moines, Ia.....	\$230,000 00

Tables numbered 9 and 10 show the aggregate business done in this State by all companies for each year since 1869, together with the estimated profit or loss on the entire business for each respective year.

Table No. 11 presents a comparison of the losses paid during 1909 and the losses resisted on Dec. 31, 1909, by each company reporting to this department at this date.

Tables numbered 13, 14, 15 and 16 relate to district, county and township mutual fire insurance companies transacting a local business, and give the name and location of such companies, their condition Dec. 31, 1909, the business transacted by them during the year 1909 as disclosed by their annual statements filed in the department, and the aggregate of this class of business for each year since 1873.

Tables numbered 17, 18, 19, 20 and 21 give similar information respecting the county and the district mutual wind storm and cyclone insurance companies, which also do a local business only.

GENERAL REMARKS.

The combined figures from the statements of all the companies, other than the district, county and township mutuals, reporting to this department show that while in 1908 the companies paid losses equaling 39 cents on each \$100.00 of risks in force at the end of the year, in 1909 the losses paid during that year equalled 36 cents on each \$100.00 of risks in force.

In 1908 the losses paid equalled 55 cents on each \$1.00 of premiums received, while in 1909, they equalled 41 cents on each \$1.00.

During 1909, the amount of premiums received by all companies was seven per cent more than the premiums received in 1908, while the amount of losses paid during the year was 6 per cent less than the amount paid in 1908.

The aggregate capital of all the companies included in this report is \$2,997,370.44 in excess of the amount of the capital of the companies as shown in the last report.

The amount of total admitted assets shows an increase of \$54,264,-045.47, and the total surplus of assets over all liabilities an increase of \$29,260,598.66.

The excess of income over disbursements of all companies during 1909, was \$51,786,883.13 as against excess of income of \$24,062,392.09 in 1908.

It is to be noted in this connection that the number of companies included in this report are five more than the number included in the last report.

The net surplus of all joint stock and foreign companies was shown in the last report to be 149.40 per cent of capital, while this year it is shown to be 182.80 per cent of capital.

The total income of all the joint stock foreign and mutual companies doing a general business, was \$319,453,841.84 during 1909, of which \$290,811,854.62 was received from premiums. Of this amount they expended for losses 43.85 per cent of total income, or 48.16 per cent of total premiums. For expenses 39.62 per cent of total income, or 43.51 per cent of premiums. For dividends to stockholders of stock companies, and policy holders of mutual companies 3.20 per cent of total income, or 3.51 per cent of premiums. The following table is of interest as showing the percentages for the past six years:

	1904	1905	1906	1907	1908	1909
Percentages of premiums to total income.....	93.06	92.77	89.59	93.04	92.17	91.02
Percentages of losses to total income.....	56.55	44.75	84.49	43.59	50.63	43.85
Percentages of losses to premiums received.....	60.76	48.24	94.30	46.85	54.93	48.16
Percentages of expenses to total income.....	33.81	34.13	34.71	40.87	36.99	39.62
Percentages of expenses to premiums received.....	36.33	36.79	38.74	43.87	40.05	43.51

The above figures and percentages are based on the combined figures of both fire and marine business. Dividends are excluded in computing expenses, and commissions are included.

The amount of insurance reported written in this State during 1909 by the companies included herein, was \$1,927,623,695.09 being \$124,-664,065.09 in excess of the amount written in 1908.

The total premiums received on business in this State by all the companies reporting amounts to \$22,614,386.48, which is \$1,166,997.91 in excess of the amount reported as received during 1908.

The total amount of losses incurred in this State is shown to be \$10,-379,412.65, which is \$2,026,680.60 less than the amount reported as incurred during 1908.

Computing the expenses of conducting the business at 33 per cent of premiums received, there is shown to have been an apparent profit to companies on their business in this State during 1909 of \$4,774,-737.89. The profit on the same basis shown on the business of 1908 was \$5,479,452.36. The average premium rate charged on fire business in this State last year was \$1.24 on each \$100.00 of risks written. The average premium rate shown for 1908 was \$1.20. The ratio of losses

incurred was 49 cents on each \$100.00 of risks written and 43 cents on \$100.00 of premiums received. The corresponding ratios were 54 cents and 47 cents respectively for 1908.

EXAMINATIONS.

Since the date of the last report examinations have been made of the following named fire insurance companies, either in the matter of incorporation, upon application for admission, or to ascertain their financial condition:

Assured's National Mutual Fire, Decatur, Ill.
 Calumet Insurance Company, Chicago, Ill.
 Central National Fire, Chicago, Ill.
 British America Assurance Company, Toronto, Canada.
 Joliet Mutual Fire, Joliet, Ill.
 Illinois National Fire, Springfield, Ill.
 Millers' Mutual Fire Insurance Association, Alton, Ill.
 Millers' National Insurance Company, Chicago, Ill.
 Western Assurance Company, Toronto, Canada.

Not since the life insurance investigation of 1905, has there been so much agitation and unrest concerning insurance matters as within the past twelve months.

Fire insurance, with special reference to the State supervision of fire rates and kindred subjects, has been the theme of daily comment in the newspapers and magazines.

The result of this discussion and the consequent publicity should be of benefit and will be so, unless legislatures and insurance departments are led into ill advised action, and learn too late that the chief difficulty lies with the causes which produce fire rates rather than with the rates themselves.

Since the last report made by this department, the office of fire marshal has been created by Act of the General Assembly.

The law took effect July 1, 1909, but no funds were available under the Act until February 1, 1910.

The appointment by you of Mr. C. J. Doyle as State Fire Marshal has met with the hearty approval of the public, insurers and insured; and it is believed that the vigorous and efficient administration of this office will do very much to improve insurance conditions, reduce the fire waste in Illinois, and produce, in the near future, a corresponding reduction in the premium charge.

The question of fire insurance rates and the relation of the State to rates and rate making, is forcing itself upon the attention of legislatures and departments, and properly enough is demanding consideration and solution.

The fire insurance charge in Illinois alone is more than \$25,000,000.00 and is of sufficient importance to merit the best thought and most careful consideration of law makers.

A number of important fire insurance rate bills were introduced in the last General Assembly, and, believing that investigation should precede action, and while these measures were pending, the Legislature by

appropriate joint resolution, referred the whole question of State control of fire rates to a commission to be appointed by the Governor, making a suitable appropriation for the expense of the commission, and providing for such powers as would insure the performance of its purpose.

The commission was appointed by you and is composed of men of high character and ability, whose business and underwriting experience guarantee a thorough investigation and an intelligent and valuable report.

The commission has taken a considerable amount of important testimony at its meetings in Chicago and elsewhere and its work is not yet finished. Its report when given to the next General Assembly, will have a very important bearing upon the vexed question of State supervision of rates and rate making, and will undoubtedly influence action upon this subject not only in Illinois but in other states.

At the request of the commission, this department has furnished such assistance and cooperation as has been possible.

A general reduction in the charge for fire insurance is certainly a result desirable from any standpoint, but conservative State officials, as well as experienced underwriters, appear generally agreed that such reduction must come largely from an improvement in the fire hazard or no very substantial relief can be hoped for.

It is seriously to be doubted whether the rate making authority should be taken from the insurance companies and vested in the State, and experiments looking to this end have not so far been sufficiently successful to warrant further adoption of this plan of State regulation.

If State supervision should be enlarged, so that there might be lodged in the insurance department power to hear and determine questions of discrimination, to require that rates be fairly applied as to individual risks or perhaps classes of risks; it would very likely accomplish much good and seems to be as far as State control or regulation of fire rating should now be extended.

Section 21 of the Act of 1889 requires the insurance superintendent to establish a classification of risks into any number of classes, not less than four, according to hazard, also that the superintendent shall require companies to report the number of policies and aggregate amount at risk in each class in the State of Illinois.

I am informed that there has never been any attempt at compliance with this law by the department until this year, but being advised that the Act is mandatory, the department has recently established four classes and asked for the information prescribed by the Act, and for such other statistics as seemed necessary.

It is not believed that the information when received will be of any particular value, because no classification which includes only a single state furnishes a proper basis for an experience table in any way reliable.

The result of operation over the entire field, not a single state, would be necessary to produce any profitable or practical results.

I believe that the fire insurance companies could, by the selection and education of a higher grade of agents, materially reduce the fire loss, and thus assist in bringing about a reduction in rates.

Certainly all local agents should take sufficient interest in their business, in behalf of their companies and clients, to procure the requisite knowledge and information necessary to be able to point out to the insured how, by more careful methods of construction of buildings, by the elimination and removal of rubbish, and by lessening the danger from needless exposures, much of the present enormous fire waste could be prevented, and rates correspondingly lowered.

An increase in the standard of efficiency of agents of fire companies can be brought about only by these corporations, and the department is gratified to know that a campaign of education along the lines indicated above is being made by the companies, not only in behalf of their agents, but also for the insuring public.

RE-TRADERS INSURANCE COMPANY.

February 8, 1910.

Mr. Fred W. Potter, Insurance Superintendent, Springfield, Illinois:

Dear Sir—We have for acknowledgment yours of the third inst. The situation in connection with the assets is not much changed since our last letter of April 7, 1909. Since that time, however, we have been continuously occupied in collecting in remaining assets, closing up

agency accounts and disposing of objectionable claims, until now we are in the midst of preparing the final wind-up preparatory to paying final dividend which we confidently expect to commence doing about the first of May. As we said last year, it will be in the neighborhood of from 5 per cent to 8 per cent, depending upon what disposition is made of certain pending and objectionable claims.

The estate would have been closed, as we advised you, during the year of 1909, had it not been for the prolonged illness and subsequent death of the attorney, Mr. Preston, who had the matter in charge last spring.

We trust this answers your inquiry and remain,

Yours very truly,

(Signed) W. C. MILLER,
Assistant Secretary.
